SISTERS OF ST. JOSEPH
OF TORONTO

Are you

**looking
for more**

in your life?

The **CSJ Associate program** may be just what you are searching for

If you are already engaged in deepening your spirituality and assisting your community, joining the Associates of the Sisters of St. Joseph of Toronto may be for you — this could be the missing piece in your life!

CSJ Associates are single or married women and men who wish to share the mission and spirit of the Sisters of St. Joseph of Toronto.

Associate membership will enrich your present life experiences.

Discover the CSJ mission

The spirit that drives the Sisters of St. Joseph was inspired by Jesus' invitation "to love God and to love our neighbour." It is a spirituality of relationship with God and with others, expressed, among other ways, through prayer and service.

After the founding of the Sisters of St. Joseph in France in 1650, women in the community were engaged with the Sisters in various works of mercy, reaching out to those who were sick, poor, abandoned and destitute. Today, the Sisters of St. Joseph of Toronto formally recognize the CSJ Associates as men and women who desire to live out their baptismal vocation through a program of shared prayer, faith and service.

Explore the ways to live out these values

The Sisters' mission and vision of relationship then flows into all aspects of your life — home, work, parish, and community. Your lifestyle will be nourished through the Associates' activities: daily prayer, monthly meetings, friendship, faith and action in the spirit of the Gospel, yearly retreats and workshops.

Move towards achieving these goals

With your CSJ Associate group, you will:

- strive to grow in love of God and others without distinction
- come together in community to pray, reflect and share on your life of prayer and service
- demonstrate gospel values in your daily life.
